

EASIT EVENT

<https://pagines.uab.cat/easit/>

M4ALL and ARSAD participants are invited to join an EASIT event that will take place on 27 January, 15.30. Registration is free but necessary to access the online platform.

An updated programme will be published soon on the [project website](#).

The aim of the event is to briefly present the EASIT project and, most importantly, to access and discuss a selection of open access training materials (video presentations, etc.).

EASIT has transferred the concept of easy-to-understand language (including easy-to-read and plain language) to the audiovisual translation world. EASIT has defined the profile of the expert in:

- Easy-to-understand subtitles
- Easy-to-understand audio descriptions
- Easy-to-understand audiovisual journalism

During the event a selection of educational content will be presented. Participants will have the opportunity to learn about these new professional profiles and provide feedback on the training materials produced.

If participants are trainers, we will explore how they could integrate these materials for free in their ongoing or future courses.

Co-funded by the
Erasmus+ Programme
of the European Union
