

Exposiciones psicosociales, inseguridad laboral y salud en una década de crisis

Psychosocial exposures, job insecurity and health in a decade of crisis

Research team: Salvador Moncada Lluís, Clara Llorens Serrano, Mireia Utzet Sadurní, Ernest Cano Cano, Amat Sánchez Velasco.

Period: 2016-2018.

Funder: Instituto de Salud Carlos III (Spanish Ministry of Economy, Industry and Competitiveness)

Reference: PI15/00161

This project enabled Spain's third survey on psychosocial risks (ERP2016). It also delivered an in-depth analysis of the job-insecurity phenomenon, examining its main dimensions—employment, labour-market and working-conditions—and its affective and cognitive facets. The project provided the baseline for project [PI15/00858](#).
