

# [ = ] LTA

LiveTextAccess

LTA is an EU co-funded project that addresses inclusion and innovation. LTA focuses on three European priorities:

- development of curricula to meet labour market and societal needs
- open education in the digital era
- social inclusion.

LTA aims to design an effective and certified curriculum for real-time intralingual respeakers and velotypists. The training materials developed will be open source and suitable for in-house, vocational and higher-education training.

Real time subtitlers trained by LTA will have proper skills to provide high-quality subtitles in different contexts:

- cultural events
- parliamentary assemblies
- broadcasts
- workplace
- education.

The training will prepare for three different working settings:

- face-to-face
- online
- by relay.
